

"TENTI-4C"

"TENTI" SHELF SUPPORT

1 "TENTI-4C"

SHELF SUPPORT WITH 3 ADJUSTMENTS, DESIGNED TO ALLOW CONCENTRIC AND OFF-CENTERED MECHANIZATION. THE CONCENTRIC MECHANIZATION ALLOWS TWO DRILLINGS TO BE MADE AT THE SAME TIME. FOR THE OFF-CENTERED MECHANIZATION, THE TWO DRILLINGS MUST BE MADE IN TWO DIFFERENT OPERATIONS. THE ADVANTAGE OF THE OFF-CENTERED MECHANIZATION IS THAT THE SHELVES MAY BE LESS THICK THAN FOR CONCENTRIC MECHANIZATION: MINIMUM 15 MM, FOR OFF-CENTERED MECHANIZATION AND 18 MM FOR CONCENTRIC MECHANIZATION.

COVER.
